- Bela LED notranja osvetlitev
- 1 zamenljiva steklena vrata, anti-UV zaščita, 2-slojno kaljeno steklo (sivo-barvano) s ključavnico

TWO TEMPERATURE ZONES

Bring your wines to tasting temperature to fully enjoy all their aromas. Thanks to its 2 temperature zones with independent adjustment (2 comrpessors), you can bring several types of wine to tasting temperature in the same cellar at the location of your choice.

WINE GALLERY

Sublimating wine is the DNA of the brand which has equipped the GALLERY cellar with side lighting, on each side of the box, for optimal highlighting. Adjustable in intensity (100% (on), 75%, 50%, 25%, off.) and in color (warm white, cold, amber) this cellar displays your wines like an art gallery concentrating your finest selection .

LOW-E-GLASS

The glass door displays your wines in complete safety. The low-E glass filter protects the bottles from UV and reduces the exchange of cold and heat between the interior of the cabinet and its external environment to achieve real energy savings.

INTERIOR EQUIPMENT

Multi bottle formats, the shelves can accommodate 75 cl Bordeaux type bottles as well as Champagne or Burgundy format. The 11 shelves are sliding on rails and offer a horizontal presentation of the bottles called “label view”. The wines are exposed and highlighted thanks to this aesthetic placement aimed at enhancing the bottle labels.

VERSATILE INSTALLATION

The GALLERY cellar can be installed free-standing and also in built-in installation thanks to its front ventilation system placed at the bottom of the cellar.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn’t reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.
This equipment is designed to be used in an ambient temperature between Néant.
This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with shelves. Adding shelves reduce considerably the total capacity.
**Thanks to the Vinotag® application, benefit from a digital register of your wine cellar and be alerted of the peak dates of your wines. In partnership with Vivino, scan your bottle to access its pre-filled wine sheet.
